ABOUT FOUNDATION HOUSE

The Victorian Foundation for Survivors of Torture Inc. (also known as Foundation House) provides services to advance the health, wellbeing and human rights of people of refugee backgrounds in Victoria who have experienced torture or other traumatic events in their country of origin or while fleeing those countries.

The organisation was established in Melbourne in 1987 and is non-denominational, politically neutral and non-aligned. It is constituted as a not-for-profit organisation managed by an elected Board of Management. Our work is funded by the Victorian and Commonwealth Governments, charitable organisations and donations from private individuals.

OUR MISSION:

To advance the health, wellbeing and human rights of people from refugee backgrounds who have experienced torture and other traumatic events.

The main areas of our work are:

- Providing services to clients in the form of counselling, advocacy, family support, group work, psycho-education, information and complementary therapies;
- Working with client communities to improve their capacity to access the services they need and to enable them to support recovery;
- Offering professional and organisational development, consultancy and resources to assist health, education, employment and other community service providers, to enhance the responsiveness of their services to the needs of people of refugee backgrounds;
- Working with the Victorian and Commonwealth Governments to ensure that policies and programs have proper regard to the needs of people of refugee backgrounds; and
- Conducting and contributing to research regarding the needs of people of refugee backgrounds and the best possible ways of meeting those needs.

PROFESSIONAL AND ORGANISATIONAL DEVELOPMENT

The Foundation House Professional and Organisational Development (POD) program provides a range of opportunities for people to develop their skills and knowledge in working with survivors of torture and trauma.

Public Calendar

Our public calendar of workshops includes specialist programs for individuals working in educational, early years or health settings, as well as sessions open to anyone working with people from refugee backgrounds.

Individuals can register for one and two day workshops, evening seminars, or webinars covering a variety of topics. The Calendar includes workshops suitable for a range of participant experience, including those new to the sector, those with some experience, and those practitioners seeking to extend their skills.

Partnerships

The POD program also works in partnership with other organisations to build capacity in working with people from refugee backgrounds. This includes services such as partnership development for design and delivery, eg. reflective practice or other professional development as identified together.

Professional Development for your Organisation

POD offers tailored professional development to agencies, based on an organisational development approach. We work closely with organisations to identify the learning needs of staff, and to establish the best structure for professional development. Our approach is flexible, determined by what suits the organisation, so the program may include for example, one-off workshops, a follow-up practice seminar, seminars or ongoing collaboration.

WORKING WITH THE IMPACTS OF PROLONGED UNCERTAINTY: TO DO, OR TO BE?

One Day Workshop

This workshop explores the psychosocial realities of living with long-term uncertainty for people from refugee and asylum seeking backgrounds. The mental health consequences arising from pre-arrival experiences are compounded by the uncertainties of the determination process and the political environment, as well as other factors such as concern for family overseas. In the current context, client-worker interactions are frequently related to discussions around migration status, and themes relating to uncertainty can dominate the relationship. Feelings of helplessness are common in both the client and worker. Ways of supporting clients living with ongoing uncertainty will be explored and the potential impact of this work on professionals is acknowledged.

Content includes:

- Overview of historical and current Australian protection processes;
- Increased understanding of our own ways of being and levels of comfort with uncertainty;
- Exploration of the impacts of trauma, ongoing uncertainty and detention;
- Ways of working and sitting with clients living with ongoing uncertainty; and
- Identification of key principles for sustainable and professional engagement with clients.

COMMUNITIES AND TRAUMA: SUPPORTING RECOVERY FROM COLLECTIVE TRAUMA

One Day Workshop

Refugee and asylum seeking experiences tear at the social fabric tying people together. This workshop will explore some of the potential far-reaching impacts of collective trauma for communities in the resettlement context, and potential recovery processes.

Participants will be introduced to the Foundation House Framework for Recovery. A panel of speakers, including members from diaspora communities and a peace-practitioner will explore the legacy of collective trauma. Drawing on the model, participants will be provided with the opportunity to reflect on potential ways of facilitating connection in the context of their roles.

Content includes:

- Exploration of concepts such as trans-generational trauma and collective trauma;
- Foundation House Framework for Recovery;
- Reflections on the collective impact of trauma from members of diaspora communities; and
- Consideration of ways to facilitate connection and longer-term recovery processes in communities who have experienced collective trauma.

OVERCOMING STIGMA: ENGAGING WITH COMMUNITIES ABOUT MENTAL HEALTH

One Day Workshop

There is a strong need to reduce stigma about mental health, for people from both refugee and non-refugee backgrounds. This workshop explores barriers preventing people from refugee backgrounds from accessing support for mental health struggles, and examines ways of engaging with communities around issues affecting wellbeing.

Participants will be introduced to the Foundation House Community Capacity Building Model, and examples of work within communities will be shared. Drawing on the model, participants will be provided to reflect on potential ways of engaging with people from refugee backgrounds who have experienced collective trauma.

Content includes:

- Foundation House Community Capacity Building Model;
- Exploration of the potential effect of culture on perceptions of mental health and mental illness;
- Common mental health concerns for people from refugee backgrounds;
- Identification of key barriers preventing people from refugee backgrounds accessing mental health services;
- Examples of engaging communities around the impact of trauma; and

WORKING WITH FAMILIES FROM REFUGEE BACKGROUNDS

Evening Seminar

Families from refugee backgrounds arrive in Australia with diverse histories of hardship and survival and need to navigate the complexity of settlement and services. This seminar will explore how services and professionals can get to know the histories and needs of families from refugee backgrounds. It will consider the range of themes that exist when clients and services encounter each other and how the voices of children and families can be heard.

It can be challenging to think about how to work with the whole family and engage family members of different ages in conversations that acknowledge past experiences whilst re-building connections within families. A detailed example will be provided of a creative intervention that can be used with all members of the family system. This includes ways to facilitate conversations that help to restore connections and begin to overcome grief and loss. The Foundation House Recovery Framework will be applied to working with families.

Content includes:

- A brief overview of Australia's humanitarian program and context to working with children and families;
- Overview and discussion of application of the Foundation House Framework for Recovery;
- Reflections on how workers can get to know children and families from refugee backgrounds; and
- A creative intervention that can be used with all members of the family.

WORKING WITH CHRONIC PAIN

One Day Workshop

Chronic pain is exacerbated for people from refugee backgrounds by the challenges of navigating a complex and often fragmented health system. Understanding how to deliver a culturally appropriate, bio psychosocial, multidisciplinary model to assist with assessment and treatment of chronic pain can make a significant impact on the experiences and health outcomes of people from refugee backgrounds with chronic pain.

Content includes:

- Revisit the 'refugee / asylum seeker experience' and trauma-informed responses in health settings;
- Explore pain as multidimensional and part of a body protection system;
- Examine current and emerging issues in pain management;
- Promote person-centred care, shared understanding and trust with clients;
- Initiate an interdisciplinary approach to pain management for survivors of torture and trauma;
- Explore specific types of bodywork, 'therapeutic touch' and client / patient responses.

UPCOMING EVENTS

These workshops will be scheduled in 2018.

Make sure you are registered on our mailing list to receive latest updates.

MENTAL HEALTH REPORT WRITING FOR PEOPLE SEEKING ASYLUM

This professional development evening will provide an opportunity for interested health professionals to learn about the requirements for writing medico-legal reports which have a mental health focus for people seeking asylum, including when and how to contribute, and key do's and don'ts.

COGNITIVE AND PSYCHOSOCIAL ASSESSMENT OF REFUGEE CHILDREN

This workshop aims to enable practising psychologists and education professionals to upgrade their cross-cultural, theoretical and practical skills in cognitive and psychosocial assessment, and increase awareness of refugee children's academic challenges.

GENDER AWARENESS IN WORKING WITH PEOPLE FROM REFUGEE BACKGROUNDS

Considerations of gender have today entered the mainstream of policy and governance to an unprecedented degree, and the field of refugee mental health is no exception.

The goal of increasing our understanding of ways to work within this context with people from refugee backgrounds will be the focus of this workshop.

Theoretical frameworks, practice wisdom, reflection and case studies will be used to explore current understandings and ways of responding.

SUSTAINABLE PRACTICE FOR BI-CULTURAL WORKERS
